Course Description
This course will provide credit for supervised practical experiences in an occupational area of interest. In addition to the work-related activity, students will complete reflective and career development assignments, as well as create a web portfolio of internship accomplishments. Credit hours will be assigned a letter grade A-F (+/-). Hours of credit recorded (1-5) are based on number of hours at your internship site and agreement of instructor. Prerequisites: consent of instructor, secured internship

Internship Purpose
Internships represent a learning strategy that integrates practical work experience with a directed, reflective, academic component to help develop personal and academic competencies. Study, reasoning, reflection, theoretical and/or conceptual exploration supplement the work experience to help develop new skills and knowledge. A primary and fundamental objective of the internship course is to help students develop the competency of self-directed learning. Self-directed learning requires self-motivation and interest. Multiple support systems have been developed to assist students in this learning endeavor.

Requirements:
Students must work a minimum of 8 hours per week as an intern (This can earn you 1-3 credits / 15+ hours per week can earn you 1-5 credits).

In addition:
- If applicable, receive permission to enroll in 4-5 credits, and you MUST select the number of credits in which you are enrolling when you enroll in Enroll & Pay, as it will default to 1 credit.
- The last two pages of the syllabus, completed and signed, need to be received by August 28th.
- You must have access to reliable internet, email, and a webcam throughout the semester to complete the coursework. If you do not feel you will have these resources, you will need to drop the course.
- Assignments: web space, learning objectives, weekly blogs, mid-term and final evaluations by you and your supervisor, an internship spotlight, and demonstrated achievements from your internship.
- Since this class is taught online, communication relies on email. If your KU email account is not your main account, make sure your non-KU account is connected to your KU account.

The Nature of an Online Course
All assignment descriptions, materials, and examples are described or listed in Blackboard. Please reference these materials before completing the assignments. Please call or email me with additional questions, or you are welcome to meet with me in Burge Union, Room 110 by appointment or set up a meeting via phone or Lync.

Internship Course Grading
All assignments will be graded on critical thinking, spelling accuracy and grammar, as well as the other items mentioned in their respective descriptions on the website. Since you are aware of all assignments and due dates from day one of the semester, late work WILL NOT be accepted. If you have a technological issue or other emergency, you need to contact me IMMEDIATELY—issues relayed after the due date will not be considered. Call your instructor and leave a message if necessary or send an email. Also, be sure to CHECK YOUR GRADES REGULARLY to ensure that I have received all of your assignments. If there is a discrepancy, please contact me within 1 WEEK OF THE DUE DATE OF THE ASSIGNMENT.

It is expected that your assignments will be written using proper grammar and punctuation, as the work for this class should reflect the professionalism you should exude in your internship.

Here is the technical grading scale:
1-2 errors: minus 1 point
3-4 errors: minus 2 points
5-6 errors: minus 3 points
7+ errors: no credit will be given for the assignment

Tips for Success in PRE 575/LA&S 490

1. Technology can fail, so always save a document in your records.

2. Make sure you read and follow the syllabus and refer to the “Assignments” tab in Blackboard each week before completing your assignments or asking questions.

3. Read the weekly emails for updates and due dates. Know that all assignments are due on a Thursday.

4. Read assignment descriptions and examples on the course website within “Assignments” tab in Blackboard. You can access past assignment descriptions and examples by clicking on the corresponding week in the “Assignments” tab.

5. Turn assignments in on time. Late work will not be accepted! If you have an emergency that will interfere with an assignment, contact me immediately before the assignment due date to make arrangements.

6. Check grades often in Blackboard, and notify me if you find a discrepancy immediately (within one week of the posting date).

7. Please refer to the syllabus, course Blackboard site, and course emails before contacting me with a question, as most questions can be answered through these documents. I will be happy to help you; however, my schedule is extremely hectic, and I may not always be available right away.

8. Proofread ALL assignments before submitting, as points will be taken off for grammatical and punctuation errors. Refer to the grammar and punctuation tips in Blackboard, if needed.

9. Read all instructional materials prior to completing the corresponding assignments.

10. If you are having any issues with assignments or your internship, make an appointment to speak with me. We can talk via phone or Lync, if you are not in the local area.
